Fox

do not forget about the trees swaying, blanketing the ground in fresh new clothes of gold and red, covering the den with whimsy. And on how the sun shines through the trees, wishing to touch your fur...
quiet and peaceful sounds from all around
sleazy dreamer
soft cozy breathing that mimics the gentle wind

The big blue whale is not a fish. You could not keep it as a dish. A bathtub would not do at all. A swimming pool is much too small. You would not want to pay the bill for 40 million little krill that you would need to buy each day if big blue whale came to stay. It's bigger than a jumbo jet, so do not keep one for a pet. Its home is in the salty sea, with krill for breakfast, lunch and tea.
