

# Number Shape Multiplication 10x Tables

I can write multiplication statements using the multiplication and equals signs.

For each image, write the multiplication fact shown.

For example:

$$3 \times 2 = 6$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

$$\square \times \square = \square$$

## Challenge:

Amina says, “ $3 \times 10$  is greater than  $7 \times 5$ .”

Is she correct?

Use your number shapes to show how you know.

# Answers

$$2 \times 10 = 20$$

$$6 \times 10 = 60$$

$$5 \times 10 = 50$$

$$8 \times 10 = 80$$

$$3 \times 10 = 30$$

## Challenge:

She is incorrect.

Children might line up three of the 10 number shapes and seven of the 5 number shapes to show the inequality.
