

**Dear parents:** .... the talk of the town or school this week has been the Street Art Project. When I first heard about this I felt slightly curmudgeonly, even though I love art. Fears of graffiti, spray cans, tagging on walls, uniforms covered in paint .... I could not have been more wrong. A hugely popular activity all week. This morning I spent time looking at what has been produced and we will try and make a display for you to see at some point. Children loved it and it has been a great success and not a wall or bench marked so far !!! Danny the Street Artist is a lovely guy as well and highly talented. Well done to the PA for funding this a second great experience after last terms climbing and caving day.

Year 3 and post Easter Alleluia assembly and in prayer and my new hero Jurgen Klopp. Not only for the amazing 5-2 triumph over Roma but also the eloquent interview he gave to the press about why Brexit is such a bad idea. A great and passionate manager.

**and finally** .. great art project and no I have not tried it as I would struggle to whitewash a wall let alone something creative like our children have been doing ... so au revoir Monsieur Wenger 22 years when you transformed the game ... a dignified man and another great European ... nice easy game for West Ham Sunday .. home to Man City!!! ... getting nervous time and then Man United .... anyway a great day just gone. Why ?? the Good Lord smiled on our school ! You'll find out soon. May next week!
