## **Our Lady & St Joseph Catholic Primary School**

# 'Shine with Love, Kindness and Respect'

## PSHRE

PSHRE (Personal, Social, Health and Relationships Education, inc Citizenship)

## **Our Mission Statement**

Our Mission is to foster the Gospel values of Jesus Christ and provide a high standard of education with equality of opportunity for all.

We aim to achieve this by...

- Creating a safe and loving environment for the whole school community.
- Enabling everyone to grow spiritually, intellectually, emotionally and physically.
- Valuing each member of our community by recognizing the gifts and needs of every individual.
- Encouraging self discipline and treating everyone with respect and courtesy at all times.
- Working in open and honest partnership with families, the Church and the wider community

## Our school motto:

Is to ask our children to always

## 'Shine with love kindness and respect'

#### **Introduction**

Any teaching about love and sexual relationships in a Catholic school must be rooted in the Catholic Church's teaching about what it is to be truly human in Christ, what it means to live well in relationship with others and be presented within a positive framework of Christian virtue with an emphasis on the importance of healthy relationships to human well-being, as the core learning within a PSHRE curriculum.

#### **Pedagogical Principles**

A good PSHRE programme must enshrine core pedagogical virtues – that it is, it must, above all else, qualify as good education. Therefore, it will be:

#### **Progressive & Developmental**

The learning needs to reflect each stage of the development of the person. It needs to be part of both the Primary and Secondary phase of education and it needs to be appropriate to the age and stage of development of children and young people during the different phases of their education. It also needs to be continuous and developmental. It should be a process which is planned from beginning to end with one phase of education informing the work of the next so that children and young people can be led to a deeper and fuller understanding by degrees at a rate which corresponds to their maturing.

#### **Differentiated**

Schools must ensure that PSHRE is sensitive to the different needs of individual pupils and is taught in a way that allows access to those pupils at different stages of cognitive and emotional development. Learning and teaching methods will need to be adapted and specialist resources and training will need to be provided for those with particular needs. Schools, therefore, should ensure that children with special educational needs and disabilities are not at any point withdrawn because of lack of resources and training or to catch up in other subjects.

#### **Cross-curricular**

Since a Catholic school is committed to the education of the whole person, teaching on relationships and sexuality needs to be reflected in each relevant part of the curriculum. Whilst, for example, some aspects will be more appropriately explored in science lessons and some more appropriately explored in RE lessons, each should be informed by the other. Each discipline should speak with consistency about the meaning of human love and the virtues that are enshrined in the Church's teaching on human love.

#### **Integrated**

A well-planned programme will not just ensure that there is correspondence between phases and across disciplines but will ensure that parents are fully involved in the planning and evaluation of the teaching of relationships and sexuality. Ideally, pupils should hear a consistent message about the meaning and value of human sexuality at home, in the parish and at school. This can only be achieved if the home, parish and school work to integrate the teaching of PSHRE.

#### **Co-ordinated**

None of these educational goals are possible if PSHRE is not given the time and importance it deserves by those who plan and implement its delivery in school.

PSHRE must be taken seriously by school leaders; led properly by someone who has the time and expertise to co-ordinate the subject with dedication and commitment at a senior level; taught by those committed to doing it well; taught as part of a whole-school approach by those who are able to celebrate – not merely tolerate – the teaching of the Church on love and human sexuality.

#### **Balanced**

Whilst promoting Catholic virtues, schools should ensure that children and young people are offered a broad and balanced PSHRE programme which provides them with clear factual, scientific information when relevant and meets the statutory requirements placed on schools.

#### The structure of this model curriculum.

This model curriculum covers EYFS, KS1 and KS2 and is based on three core themes within which there will be broad overlap. It is adaptable to the age and ability of the pupils. The three themes are:

#### • Created and loved by God (this explores the individual)

The Christian imperative to love self, made in the image and likeness of God, shows an understanding of the importance of valuing and understanding oneself as the basis for personal relationships.

#### • Created to love others (this explores an individual's relationships with others)

God is love. We are created out of love and for love. The command to love is the basis of all Christian morality.

#### • Created to live in community – local, national & global (this explores the individual's relationships with the wider world)

Human beings are relational by nature and live in the wider community. Through our exchange with others, our mutual service and through dialogue, we attempt to proclaim and extend the Kingdom of God for the good of individuals and the good of society.

Each theme covers the core strands of 'Education in Virtue' and 'Religious Understanding' as well as strands which cover the PSHRE content of the theme.

#### **Christian Virtue and PSHRE**

Each theme begins with a statement of the virtues which are necessary to living well in relationship with others and these virtues should underpin the teaching but also should emerge as a consequence of it. Virtues are habits which are learned from experience and are gained through imitation, the same virtues being modelled by those who teach. They express the qualities of character that schools should seek to develop in their pupils, through their exemplification by the whole community of which the pupils are a part. These virtues reflect our Christian tradition but they are also, of course, fundamental human virtues which are universally shared.

#### **Appendix 4: Protected Characteristics**

#### What are the Protected Characteristics?

It is against the law to discriminate against someone because of:

- age
- disability
- gender reassignment
- marriage and civil partnership
- pregnancy and maternity
- race
- religion or belief
- sex
- sexual orientation

These are called Protected Characteristics. In UK law, individuals are protected under the Equality Act 2010 from these types of discrimination.

Where are they covered in the Primary Ten Ten Life to the Full Programme?

#### Age:

The subject of age, and the dignity of the person at all ages, is explored in the unit Life Cycles (All Key Stages, Module 1 Unit 4). Within these lessons, the programme teaches about the natural progress of life, and teaches that death is part of God's plan for us.

#### **Disability:**

Since 2019, Ten Ten have been working with a SEND specialist to a) provide specific guidance for the teaching of the subject for children with Special Educational Needs and b) to help us become more mindful of disability diversity representation on in our stories and imagery. During the academic year 2021-22, changes have been made to image content, video content, lessons and appendices to increase disability representation.

#### **Gender reassignment:**

Whilst we are mindful that gender reassignment is a real issue for many primary schools, the subject is not currently explored in Life to the Full. Rather, the programme provides foundational language about our core identity as children of God to enable schools to address specific issues with their whole school community.

#### Marriage and Civil Partnership:

The sessions "Who's Who?" (EYFS Module 2.2.1), "Special People" (KS1 Module 2.2.1) and "Family, Friends and Others" (LKS2 Module 2.2.1) explore different family structures. They provide opportunities for children to share news about their own family structure in a non-judgemental forum and also provide opportunity for discussion the different family structures given in the various stories and scenarios.

In the **Paradise Street dramas (UKS2 Module 1)**, various family structures are represented through the characters in the films and there is discussion about specific family structures, such as families with 'two mums and two dads' in "Gifts and Talents" KS2 Module 1.2.1.

#### Pregnancy and maternity:

Although pregnancy is explored in age-appropriate ways throughout the primary schools' programme in the unit Life Cycles (All Key Stages, Module 1 Unit 4), the specific issue of maternity discrimination is not explored in primary schools.

#### Race:

From the outset within the design of the programme, Ten Ten have been mindful of ensuring racial representation in our stories, dramas, appendices, scenarios and imagery. Building on a resource we created for our Collective Worship porogramme in response to Black Lives Matter, in March 2022 they plan to launch a new resource for all learning stages which specifically explores anti-racism. This new resource is included as part of the Life to the Full lesson structure.

#### **Religion and belief:**

In the current iteration of Life to the Full, we cannot point to a specific lesson or unit which explicitly points to the importance of respect for other religions, although it is acknowledged that primary schools will undertake this teaching through R.E. However, it is acknowledged by Ten Ten as a point for development within this programme and we will endeavour to include further teaching in this regard for the academic year 2022-23.

#### Sex:

Throughout the primary schools' programme, the teaching, stories, videos and image content establish an understanding of the equality of men and women, boys and girls. For example, in the unit "Me, My Body, My Health" (All Key Stages, Module 1, Unit 2) the discourse about the physical differences between boys and girls is matched by teaching about gender equality and dispelling gender stereotypes.

#### **Sexual orientation:**

Attraction to the opposite sex is touched upon in UKS2 Module 1 within the 'Paradise Street' series as part of a discussion around emotional changes. However, sexual attraction as a subject is not addressed as part of the Life to the Full programme.

In 2021/22, a new resource has been added to the programme which addresses homophobic bullying within the wider context of living 'life to the full'.

#### Appendix 5: PSHRE Knowledge Progression

Ten Ten: Module 1: Created and Loved by God

Module 2: Created to Love Others

Module 3: Created to live in Community
