

Maths - Multiplication Triangles

Use your \times and \div knowledge to complete the multiplication triangles. Fill in the missing numbers, I have done the first one for you. You can write the related \times and \div sentences on a separate sheet to help you.

e.g. $8 \times 10 = 80$

$10 \times 8 = 80$

$80 \div 10 = 8$

$80 \div 8 = 10$

Challenge:

Can you create some of your own multiplication triangles?
