Adding Money

1. Find the totals.

A.

B.

VF

2. Add the amounts together and circle the correct total.

A.	B.	C.
£9	12 pounds	£11

VF

3. Which two children have the same amount of money?

Ryan: I have one £5 note, three £2 coins and two £1 coins.

Orla: I have one £10 note and one £5 note.

Khalid: I have one £10 note and five £1 coins.

VF

4. Tracy wants to buy two items from the list below.

Item	Price
apple	20p
pear	34p
orange	39p
banana	60p

If Tracy's total is less than 60p, what two items could she have bought?

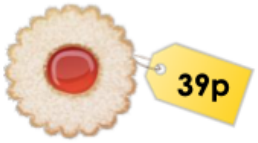
PS

5. Ben has the money below. He knows that up to four copper coins are hidden.

What could his total be? Find three possibilities.

PS

6. Elijah and Elise want to buy the items below.



Elijah: I have 63p.

Elise: I have 68p.

Who has enough money to buy both items? Explain why.
