

Changing Shape

Aim

- I can explain how the shapes of objects made from some materials can be changed.

Success Criteria

- I can tell you four ways the shapes of some objects can be changed.
- I can demonstrate four ways to change the shape of some objects.

Before we begin...

For today's lesson, you will need to have a selection of everyday objects (around 8 objects will be perfect).

We are going to explore them by squashing, bending, twisting and pulling.

Try and choose objects made from a variety of different materials.

Changing the Shape of Materials

How can we change the shape of objects made from some materials?

Can you think of an example of when you have changed the shape of something?
What was it and how did you change it?

Which materials do you think would be easy to change the shape of? Why?

Which materials do you think would be more difficult to change the shape of and why?

Squashing, Bending, Twisting and Stretching

Squash an object by pushing both hands together.

Bend an object by grabbing both ends of the object and bringing the ends inwards together.

Twist an object by turning your hands in opposite directions.

Stretch an object by pulling your hands slowly and gently apart.

Instructions

1. Look carefully at the objects on your table. **Before** you touch any of them, think about how you could change the shape of them.
2. Explore changing the shape of the objects on your table by gently squashing, bending, twisting or stretching them.
3. What happens to these objects after you have manipulated them?
4. Record what you find out on your Changing Shape Activity Sheet.

Changing Shape

★ Changing Shape

Explore the objects on your table and record your answers by putting a tick or a cross in each column.

Object	Can You Squash It? 	Can You Bend It? 	Can you Twist It? 	Can You Stretch It? 
drinks can 				
pipe cleaner 				
sock 				
drinking straw 				
playdough 				
bath towel 				
sponge 				
elastic band 				

Can You Stretch It?

The shape of all these objects could be changed in some way. See if you can find 3 objects which can't be squashed, bent, twisted or stretched. Write them down here:

★★★

Explore the objects on your table and record your answers by putting a tick or a cross in each column.

Object	Can You Squash It?	Can You Bend It?	Can you Twist It?	Can You Stretch It?
drinks can 				
pipe cleaner

Can You?

Have a think about these questions:

Can you twist a ruler?

Can you squash a ruler?

Can you stretch a pencil?

Can you bend a pencil?
