

Dear parents: you get certain amazing days in the life of a school and yesterday certainly was one. The Climbing and Caving activity was inspiring, challenging and just massively enjoyable for all the children (and some staff) who took part. The concept behind it was pure genius and to see the sense of achievement when the children reached the top of the climbing wall was a joy to behold. The caving aspect was equally ingenious. Thank you so much to the PA for thinking of this unique activity it was an exceptional day. Palm Sunday coming up so enjoy and it's now Spring !!
