

Research project on Joseph Banks

Joseph Banks was a very famous botanist (someone who studies plants). For your half term science project, I would like to research his life and make a fact file or poster about him. I have included some sites below that you can use and some blank template sheets, however, feel free to use others sites and make your own sheet if you want. Just remember to include:

Key facts about his life

Where and when was he born?

What is he most famous for?

How has he helped or changed the world?

You can also include pictures/ diagrams / Photos/ Quotes / your opinion. Be creative!

I look forward to seeing your finished work, send it to me on dojo if you would like to share it with the class!
