We are aware that the General Data Protection Regulations (GDPR) has entirely replaced the previous Data Protection Act (DPA) making changes to many existing data protection

Our Lady and St Joseph School

rules and regulations that schools, academies and other educational establishments adhered to under the DPA. The principal aim of the GDPR is to strengthen and unify the safety and security of all data held within an organisation.

We believe we have a duty to provide pupils with quality Internet access as part of their learning experience across all curricular areas. The use of the Internet is an invaluable tool in the development of lifelong learning skills.

We believe that used correctly Internet access will not only raise standards, but it will support teacher's professional work and it will enhance the school's management information and business administration systems

We acknowledge that the increased provision of the Internet in and out of school brings with it the need to ensure that learners are safe. We need to teach pupils how to evaluate Internet information and to take care of their own safety and security.

E-Safety, which encompasses Internet technologies and electronic communications, will educate pupils about the benefits and risks of using technology and provides safeguards and awareness to enable them to control their online experience.

We believe all pupils and other members of the school community have an entitlement to safe Internet access at all times.

We work hard to increase parents understanding of the internet and of the serious safeguarding issues and risks that there are for children online and how to keep them safe.

We have a duty to safeguard children, young people and families from violent extremism. We are aware that there are extremists groups within our country who wish to radicalise vulnerable children and to involve them in terrorism or in activity in support of terrorism. Periodic risk assessments are undertaken to assess the risk of pupils being drawn into terrorism. School personnel must be aware of the increased risk of online radicalisation, and alert to changes in pupil's behaviour. Any concerns will be reported to the Designated Safeguarding Lead.

We are aware that under the 'Counter-Terrorism and Security Act 2015' we have the duty to have 'due regard to the need to prevent people from being drawn into terrorism'. This duty is known as the Prevent duty and we believe it is essential that school personnel are able to identify those who may be vulnerable to radicalisation or being influenced by extremist views, and then to know what to do when they are identified.

We provide a safe environment where we promote pupils' welfare. Within this environment we work hard to build pupils' resilience to radicalisation and extremism by promoting fundamental British values and for everyone to understand the risks associated with terrorism. We want pupils to develop their knowledge and skills in order to challenge extremist views.

We wish to work closely with the School Council and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on the Rights of the Child that children should be encouraged to form and to express their views.

Our Lady and St Joseph School

We as a school community have a commitment to promote equality. Therefore, an equality impact assessment has been undertaken and we believe this policy is in line with the Equality Act 2010.

We all have a responsibility to ensure equality permeates in to all aspects of school life and that everyone is treated equally irrespective of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. We want everyone connected with this school to feel safe, secure, valued and of equal worth.

We acknowledge the findings of the Race Disparity Audit that clearly shows how people of different ethnicities are treated across the public services of health, education, employment and the criminal justice system.

The educational section of the audit that covers: differences by region; attainment and economic disadvantage; exclusions and abuse; and destinations, has a significant importance for the strategic planning of this school.

We believe it is essential that this policy clearly identifies and outlines the roles and responsibilities of all those involved in the procedures and arrangements that is connected with this policy.
