

**Question:**

I need more notice for school events we're expected to attend, like sports day. Can the school do this?

**Answer:**

We do 6 written updates about events and dates per year that go home. In September and November, again in January and February and finally in April and June depending on the half-term. The website calendar also has all these dates and is updated on a weekly basis. Sports Day dates usually go out in April for an event in early July.

i.e. 3 months in advance.

If events are added (which they are all the time) then we also put these on our website **Calendar** and also send out text reminders. See our Home / School communications and links to parents 2018 under **Parents** on our website. Any omissions or updates needed please let us know.
