

OLI: To create a collage.

RE - Lesson 2.

There are many people in the community who spread the Good News and help others. Read through p.137 and look at the pictures. I would like you to create a collage using pictures and text to show how different people help the community in different ways. Think about all the amazing people who go out of their way to help others. Particularly recently, there have been a lot of brilliant people who have really made a difference to people's lives.
